

SPLIT

Erasmus+

EU Mobility Croatia
INTERSHIPS-TRAINING

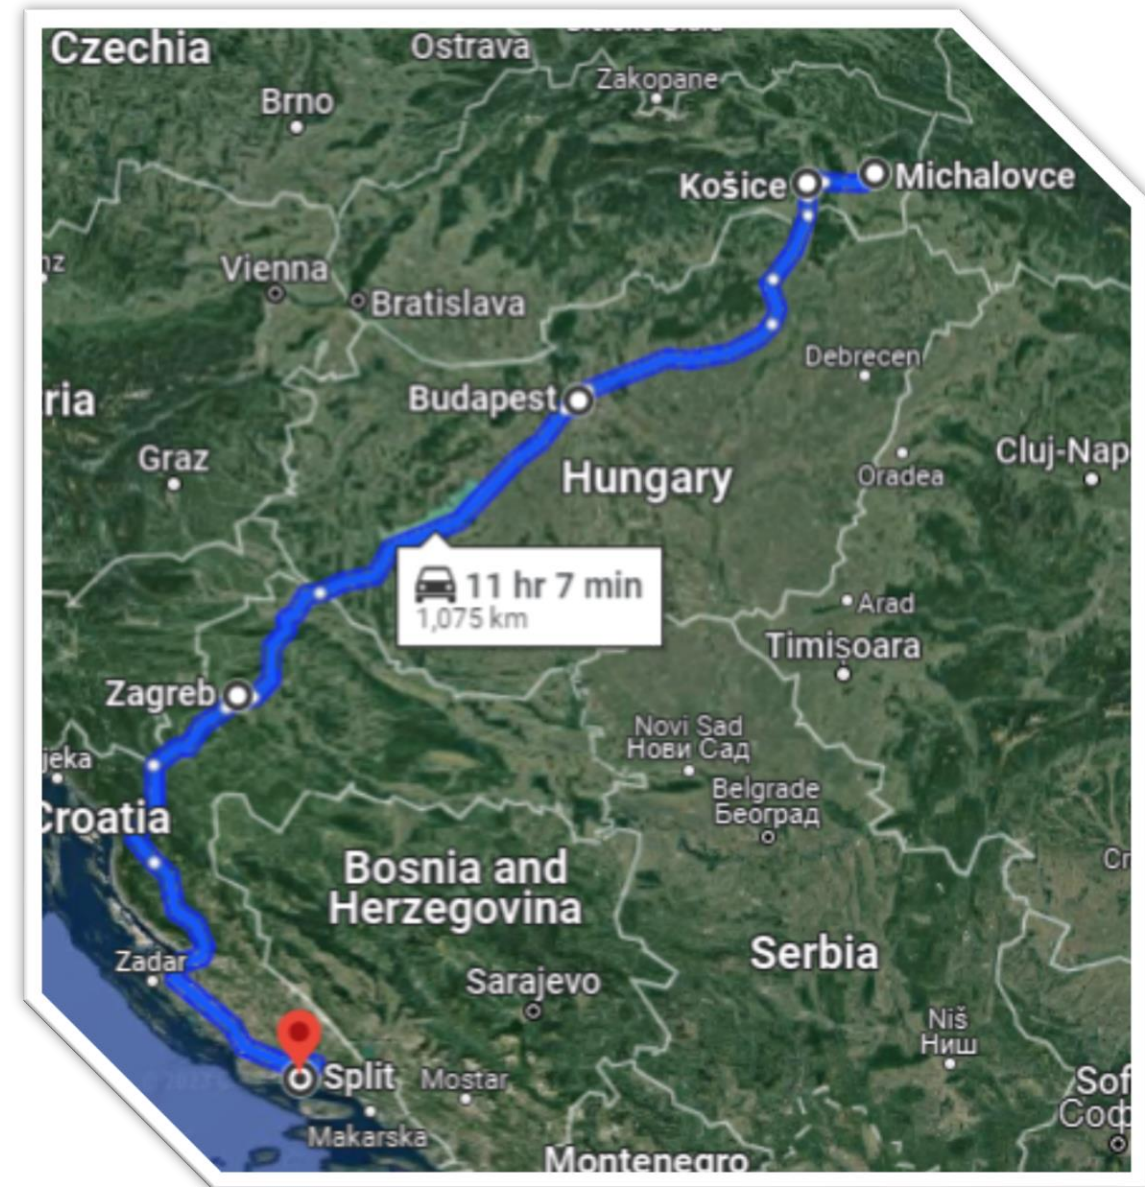

Tomáš Babič

HOW IT ALL STARTED

- in order to participate in Erasmus mobility, we had to prepare for tests in the English language and professional subjects
- according to results, the best ones were selected for mobility
- next we received instructions and information about how everything will proceed and how we will be divided into individual workplaces

TRAVEL

- our journey began in Michalovce
- as you can see on the map, we traveled to Košice, then through the whole Hungary to Zagreb and then to Split
- the total journey was little bit over 1000 km long

SPLIT

- after arriving in Split, we went to check in and look around the city
- we got to know the city over time
- every day we went to the restaurant for breakfast, lunch and dinner to the Restoran Index and also to work
- when the weather was nice, we went swimming into the sea
- in the evening we walked around the city and got to know Croatian culture

INTERSHIPS-TRAINING

Adriatic Sea

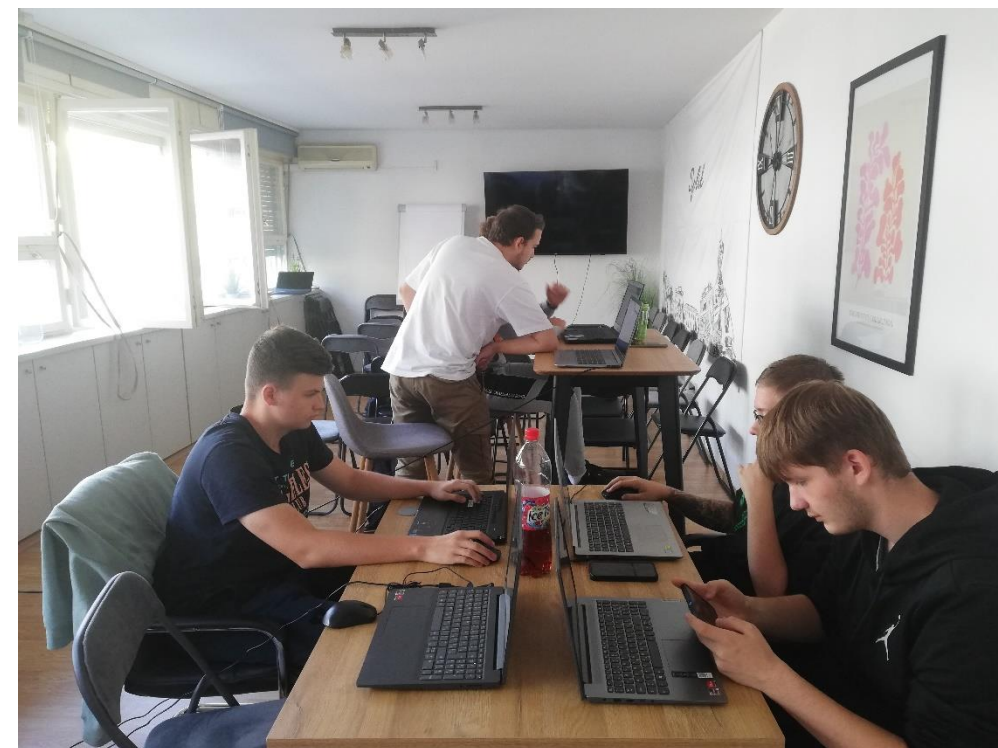

Centre of Split

WORK

- every day we went to Lama's company
- we worked with the jsreport program and worked on various assignments sent to us by our mentor
- some assignments were very simple, but others were more complex

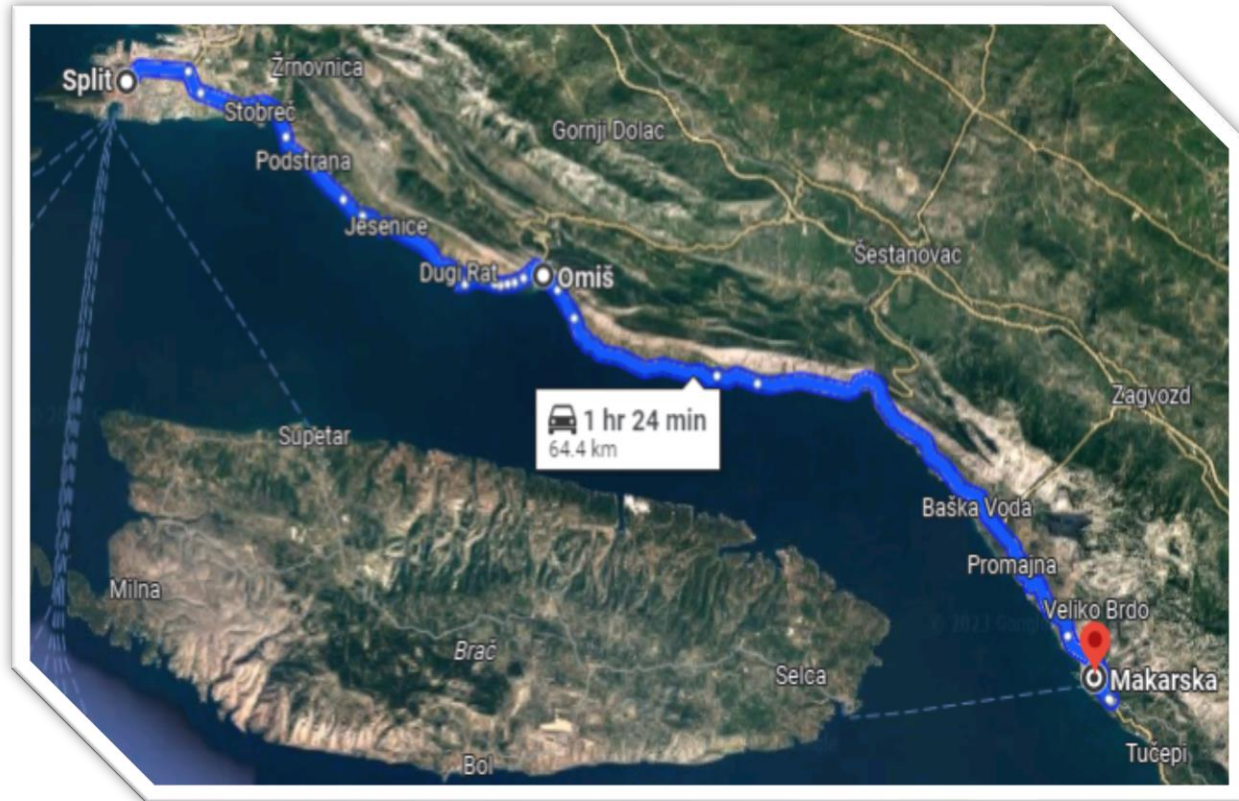

WORK

EU Mobility Croatia INTERSHIPS-TRAINING

TRIP #1

- our first excursion was a boat trip in the city of Omiš
- we sailed along the Cetina River and saw how the river flows into the Adriatic Sea
- then we traveled to Makarska beach, one of the most beautiful sandy beaches
- the trip took about an hour and a half

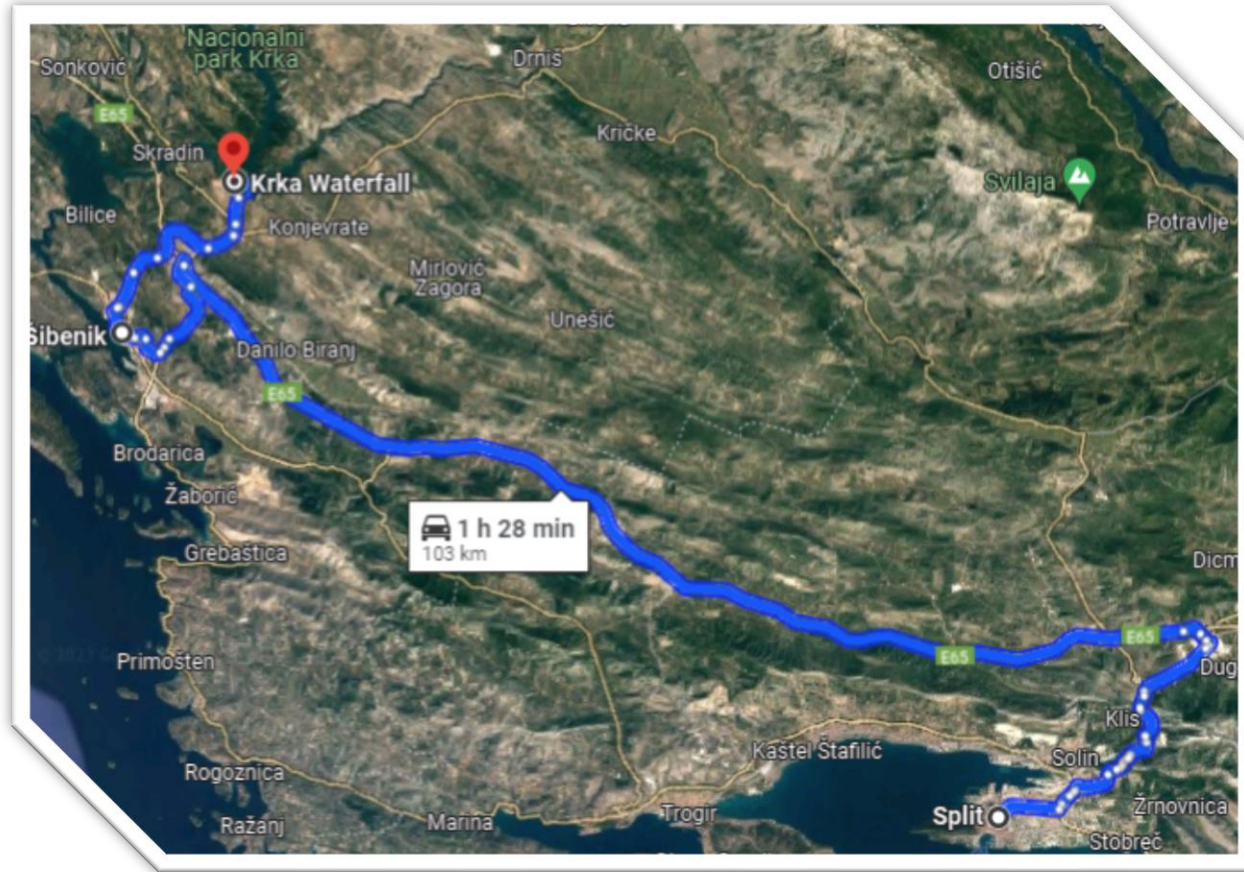

Omiš and Makarska Beach

TRIP #2

- our second trip was to visit the Krka Waterfalls
- we walked along wooden walkways between streams and looked at waterfalls and lakes
- on the way back we stopped in the town of Šibenik, which is part of UNESCO

Krka Waterfalls and Šibenik

LAST DAYS IN SPLIT

- the last days in Split we finished our final assignments at work, went for a last walk around the city and started packing our bags
- we all enjoyed the whole two weeks in Croatia, we learned something new
- I also liked the fact that we communicated in English the whole time and we didn't have any big problems with it

THANK YOU FOR YOUR
ATTENTION
