

ERASMUS PLUS BELGIUM 20.11-25.11 2022

A group of students Sára Papanová IV.B, Nina Jančková Oktáva, Miriam Saganová Oktáva, Sára Janotíková III.C, Michal Gerát III.A, Martin Kormaňák III.A visited Belgium as part of the programme Erasmus+2020-1-IT02-KA229-079691_3.

WE RECENTLY had the pleasure of traveling to Belgium, a country located in western Europe known for its beautiful landscapes and picturesque towns. From the capital city of Brussels to the quaint town of Bruges, our journey through Belgium was filled with wonderful sights and experiences.

THE TRIP BEGAN with an exploration beautiful city of Gent in. It was a great experience! From the historic cobblestone streets, old churches and stunning canals, there were plenty of amazing sights to take in. The city is a mix of modern and classic styles, which made for an interesting visual landscape. The shopping districts were full of exciting stores and local eateries offering delicious dishes from around the world. There were also lots of art and culture everywhere, from galleries to theaters and museums.

ALSO WE HAD an amazing lecture about artificial intelligence. It was a very interesting topic and it kept us engaged throughout the 80 minutes. The professor explained AI concepts in simple terms which made them easier to understand. We were also provided with resources and tips on how to further explore this exciting field of study. Everyone was excited to learn more and we look forward to upcoming lectures on this topic. Overall it was a fantastic excursion and one that I will remember fondly for years to come!

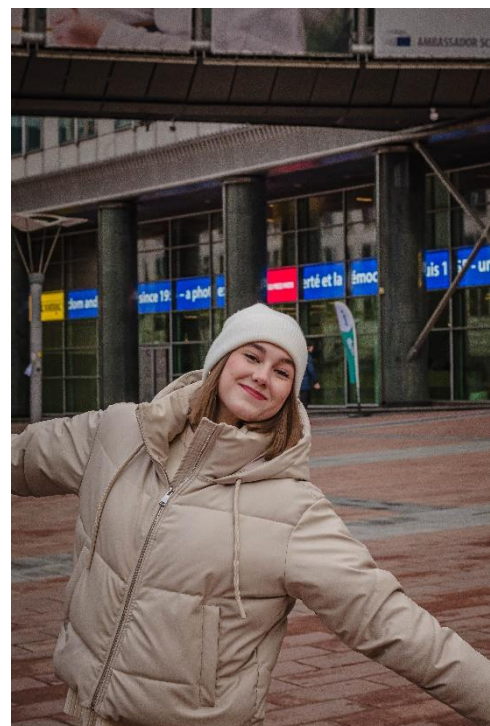

THE FOLLOWING DAY we went to Brussel. We arrived early in the morning and spent the whole day exploring all that this stunning city has to offer. Our first stop was the European parliament, where we had a lecture about the European Union. From there, we strolled around other historical monuments such as La Monnaie and Palace de Justice. Next, we stopped by some of Brussels' unique cafes and shops before heading towards Cinquantenaire Park for a relaxing stroll through its tranquil gardens. All in all, it was a truly unforgettable experience. We will definitely be coming back to explore more of what Brussels has to offer!

ON THIRD DAY we visited the museum of chocolate in Brugge. It was a delightful experience to explore the world of Belgian chocolate! We started our tour by learning about the history and evolution of chocolate production, which gave us an appreciation for the work involved in creating delicious chocolate confections. Afterwards, we observed some of the processes that are used in making chocolates and got to try some samples as well. We even had the chance to purchase some exclusive treats that we couldn't find anywhere else. In general it was a wonderful trip that truly gave us a deeper understanding and appreciation for Belgium's exquisite chocolates.

LAST DAY we spent in the Belgium School! We all got to have lessons together and experience what it's like to be in a Belgian classroom. The classes were very interactive and educational. We had a great time learning about different topics with our peers, and everyone enjoyed the chance to be able to socialize with each other while doing something productive. It was an incredible experience that will stay with us for a long time!

SADLY ON FRIDAY we had to left Belgium and traveled back home to Slovakia. The journey was quite smooth and hassle free. We arrived safely at our destination, taking with us memories of an amazing time in Belgium. On the whole it was a successful trip that we will fondly

Thank you all
